Dear Ms. Stasio:

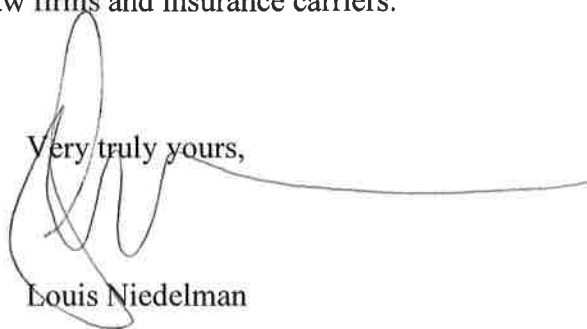

I and my office have used the stenographic services of Kaplan Leaman and Wolfe for many years in connection with our representation of various clients of my law firm.

We have been most satisfied with the quality of your deposition reporting work. Your reporters are always courteous, diligent and meticulous not only in their note-taking but also in their finished product, the deposition transcript. We value your thoroughness, punctuality and attention to detail.

Of course, we will continue to utilize your services with selected clients and I would recommend your firm to other attorneys, law firms and insurance carriers.

Thank you.

Very truly yours,

Louis Niedelman
